

# NNAEDOZIE CHUKWUNETA DENNIS

## Full-Stack Developer

Location: Lagos, Nigeria || Phone: +2347068939092

Email || Portfolio || GitHub: Nnaedozie-Dennis || LinkedIn: nnaedoziedennis

### PROFESSIONAL SUMMARY

Full-Stack Developer with practical experience building, integrating, and deploying web applications using React, Next.js, Node.js, Express, and MongoDB. Strong frontend foundation with backend expertise in REST APIs, authentication, and database design. Also skilled in data analytics, visualization, and SQL/Python for actionable insights. Experienced in translating product requirements into maintainable code and collaborating in remote, cross-functional teams.

### SKILLS

#### *Technical Skills*

- **Frontend:** HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, TypeScript
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Auth, MongoDB, Mongoose
- **Data Analytics:** SQL, Python, Power BI, Excel
- **Tools:** Git, GitHub, Postman, Vercel, Netlify

#### *Soft Skills*

- Analytical Thinking
- Problem Solving
- Attention to Detail
- Team Collaboration
- Critical Thinking
- Time Management

### WORK EXPERIENCE

#### *Volunteer Full-Stack Developer Intern (2025)*

##### **Just Lit Digital, Lagos State**

- Implemented frontend features and supported backend API integrations.
- Worked with JavaScript and React to implement user interface components.
- Collaborated remotely with team members to meet project deadlines.

#### *Meteorological Observer (2024 – Present)*

##### **Murtala Mohammed International Airport (NiMet), Lagos State**

- Conduct real-time weather observations to support aviation safety and climate research.
- Utilize GIS tools and meteorological software to analyse atmospheric conditions.

- Provide accurate weather reports to aid in air traffic management.
- 

## PROJECTS

### Mirava - E-commerce for Pregnant Women

*React, CSS, TypeScript*

- Developed a responsive web application with a clean user interface.
- Implemented reusable React components to improve scalability.
- Optimized layout and navigation for cross device usability.

### Peak Path - Travel Adventure Platform

- *React, JavaScript, Tailwind CSS*
- Built a travel website showcasing adventure experiences worldwide.
- Structured components and routing for clarity and scalability.
- Focused on performance, accessibility and responsive UI design.

### Note App (Full-Stack)

*Next.js, Node.js, Express, MongoDB*

- Built a full-stack note-taking application with CRUD functionality.
- Designed and integrated RESTful APIs for data creation, retrieval and updates.
- Connected frontend components to MongoDB using Mongoose.
- Deployed the application using Vercel.

### Blaze Academy - Educational Platform

*React, Tailwind CSS, TypeScript*

- Developed an educational website highlighting multiple tech learning tracks.
  - Implemented structured sections for programs, features and user engagement.
  - Applied responsive design principles for mobile and desktop users.
- 

## EDUCATION

### *Nnamdi Azikiwe University, Anambra State, Nigeria*

*B.Sc. in Geography & Meteorology (2019 – 2023)*

### *Godfrey Okoye Secondary School, Enugu State, Nigeria*

*WAEC Certificate (2011 – 2016)*
